

CraftHub – Handmade Marketplace

Project Description

CraftHub is an online marketplace for handmade products such as crochet, candles, pottery, jewelry, paintings, accessories, and home décor.

Customers can browse products, search by category, add products to their cart, place orders, and leave reviews. Sellers manage their products and orders through a dedicated dashboard, while administrators manage users, products, categories, orders, and sellers.

The main goal of CraftHub is to provide a modern platform that connects customers with handmade product sellers in one organized marketplace.
